

THE PLAYHOUSE WHITSTABLE

Covid post-19th July 2021 Safety Measures

Following the relaxation of government rules on Covid safety, the Lindley Players Ltd. will be following government and See It Safely campaign recommendations for the safety of our staff and audiences. This is to ensure that our audiences and staff can feel safe and confident in returning to the Playhouse.

Playhouse provisions

- Hand gel dispensers are located throughout the building
- Cleaning of the public areas of the Playhouse takes place after every performance.
- Ventilation is a key issue. The Playhouse has a combination of natural and mechanical extract and air quality is monitored.

We strongly urge audience members to:

- Please be considerate and give other audience members as much space as you can. Particularly at the bar and when moving around the auditorium.
- Use the hand gel dispensers or washbasins in the toilets.
- Wear face coverings particularly when moving around the Playhouse.
- Order drinks for the interval in advance. Recyclable plastic glasses are provided; these can be taken into the auditorium.
- Do not attend if you or a member of your party has Covid or symptoms of Covid.

We are excited to be back providing live entertainment and really appreciate your visit.
